

Reduces Micro-particles,
 Chemicals, Gases and Odors.

Model 5000 EXEC

Residential and Commercial Air Purification Systems
All purpose air cleaners for home and office.

Clean and recirculate contaminated indoor air.
Doctors stress the importance of clean air for maintaining good health.

The high efficiency filtration system that delivers the clean air you need for every day good health.

Carbon filter

- Granular activated MAC-B carbon filter (18 lbs.)

HEPA filter

- HEPA warm rolled to prevent cracking at folds.
- Laser tested to ensure integrity.
- Traps 99.97% of particles as small as 0.3 microns.

Pre-filter

- Easy to change (1/2 minute) pull out pre-filter.
- 2 anti-microbial filter.

Robust all-metal housing

- Powder coated housing ensures no release of harmful vapors.
- 18 gauge steel.
- 4 casters for easy manoeuvrability.
- Cylindrical shape to maximize air flow.
- 3 speed fan effective up to 1500 square feet.

Easily changeable filters

- Simply click-off the top to change filters in an instant.

Options

- 10 or 20 Watt UV lamp

Allergies and asthma are a growing problem. Use an Allerair 5000 Exec to clean the indoor air of your home and office

Trap particles

- ◆ Pollens
- ◆ Dust
- ◆ Dust mites
- ◆ Pet dander

Adsorb Chemicals, Gases and odors

- ◆ Airborne chemicals
- ◆ Mold toxins
- ◆ Paint fumes
- ◆ Cleaners
- ◆ Solvents
- ◆ Furniture glue
- ◆ Carpets
- ◆ Plastics
- ◆ Insulation materials
- ◆ Printer Emmissions
- ◆ Cigarette smoke

Invest in good health with the AllerAir 5000 EXEC air purifier

Reduces Micro-particles,
 Chemicals, Gases and Odors.

Model 5000 EXEC

Residential and Commercial Air Purification Systems
All purpose air cleaners for home and office.

Let our MAC-B carbon filter absorb harmful gases and odors before you do.

Chemicals have replaced bacteria and viruses as the main threat to human health in western industrial nations.

Our bodies do have some defense against particles but none whatsoever against airborne chemicals, gases and odors

AllerAir 5000 Exec offers 18 lbs. of MAC-B activated carbon to clean airborne chemicals, gases and odors.

Most domestic air purifiers on the market only really protect against particles. They only have a few grams of carbon sprayed on a mesh. It's not enough to clean the air.

Activated carbon is the filter material used in military gas mask.

AllerAir air purifiers are successfully used in hospitals, dental clinics and operating rooms.

Invest in an effective air purifier: Increase the quality of your life and protect your health by using an AllerAir unit.

18 lbs. MAC-B carbon filter bed ①

- Mass Activated Carbon can trap 60% of its own weight of gases and odors.
- The more carbon you have the more pollutants will be trapped.
- Other brands only have a few grams of carbon sprayed on a mesh filter and trap only a small amount of gases and odors for a short length of time.
- Activated carbon works like a sponge; when it is full it can absorb no more. The AllerAir 5000 Exec offer 18 lbs. of MAC-B carbon for efficient long-term gas and odor adsorption.

HEPA filter ②

- Traps airborne particles such as dust mites, pollen, mold spores and animal dander.
- The HEPA filter can trap 99.97% of particles as small as 0.3 microns, the size of some bacteria.

Cleanable pre-filter ③

- Stop larger particles from reaching the HEPA and carbon filters and helps prolonging their life.

2 anti-microbial filters ④

- Inhibit the growth of bacteria and viruses.

Metal housing with baked enamel finish ⑤

- Plastic casing air purifiers can be cheaper, but plastic gives off vapors which are released into the breathing space.

Cylindrical shape maximizes air flow

- The air flow through the 4 filters and circulates out through the top of the unit in the chosen direction.

Effective up to 1500 square feet

- Large enough to clean the air in the average room.
- Three speed motor for rapid room cleaning or quiet overnight use.

The guarantee *More filtration * More features * Less costly
